SHARES REACH HIGH
LEVEL ON EXCHANGERecord Volume and Price in Months
Recorded in Trading at Brief
Session Saturday Morning.

NEW YORK, April 19.—The stock market experienced its highest work and session in many months today, despite yesterday's record which induced many traders to extend their activity into the coming week.

The market movement began at the outset and continued with undiminished activity to the end, a majority of leading issues closing at or within small fractions of their top levels.

Incidentally the advance elevated many specialties to highest prices of the year and in a few instances for the past two years were established.

Backwardness of raw and the sluggishness of foreign exchange were noticeable influences in such matters as shipping, equipment, oil, rubber and half a score of other issues.

Last week's heavy actual loan expansion by clearing house bank was replaced by a moderate contraction, and an increase of \$12,000,000 in commercial reserves strengthened the dollar to a level slightly more than 154.00 gold.

Little interest was shown in the bond market, Liberty issues yielding slightly with minor changes in other domestic issues and international.

Total sales for the week aggregated \$2,250,000,000, United States 2s and 4s gained 1.1 per cent on call during the week.

AMERICA has, for many years, led the world in the quality of pianos produced. One dominating name has succeeded another as something more beautiful, more enduring, has been evolved, the leadership always passing to the piano which is finer and more costly than those which have preceded it. Today the Mason & Hamlin is universally acknowledged to be the most expertly beautiful piano the world has ever known—the choice of the composer and of those that buy the best that the world affords. Inspection is invited.
